#### SENTIMENT

It has been said that corporations have no soul and that sentiment and business will not mix. Neither is true!

Our bank is celebrating its FORTIETH ANNIVERSARY today, an event made possible only because its management has from the very beginning acted solely upon the premise that as a useful institution we must take an active part in the progress of the community and that we must be truly interested in the welfare of patrons. In other words, we have combined Friendliness and Service successfully.

#### GRATITUDE

Thus we round out the FORTIETH YEAR with pardonable pride in our continued success, but in humble recognition of the fact that our excellent record has been made possible only through the good will of those whom we have tried to serve. To you who have given us your loyalty throughout all or any part of the FORTY YEARS we express our UNDYING GRAT-ITUDE with all possible emphasis.

#### APPRECIATION

Few remain who were with us when we began our journey FORTY YEARS ago, but to those few, and to that host of loyal patrons who have come with us later, we desire to voice our heartfelt appreciation of you, your confidence and your influence. We feel that your loyalty is a tribute to our sincerity of purpose and enables us to enjoy that most satisfactory experience of the human mind, a SENSE OF DUTY WELL DONE. Over and over again--WE THANK YOU!!

#### CONSECRATION

We thank you in words, yes! But more than that we shall undertake to PROVE our gratitude to you and prove ourselves worthy of your constancy and the trust of your friends by renewing our vows to SERVE YOU WELL. The most impressive lesson we have learned in our FORTY YEARS' experience is that THE ONE WORTH-WHILE BUSINESS RULE is the GOLDEN RULE. With all our heart and all our might we do herewith reconsecrate the CORSICANA NATIONAL BANK to the service of this community and its citizenship.
